

- » All main operating parts are made of stainless steel, for working in any weather condition aswell

» 16mm stainless steel rods with lasermarkings

» Bendingwheel in angle position for bending material til 100°

» Space between axles can be adjusted depending on the thickness of the materials from 0,3-1mm

» The bending wheel placement is specially designed at 10° angle to avoid material damaging and paint scratching when bending the sheet.

» Possible to bend up to 90° without scratching the surface of material

PROFESSIONAL ROOFER TOOLS

Bender S-60

Bending up to 100 °

Insertion depth from 5 – 60 mm

Material thickness up to 0.8 mm

Weight: 1.1kg

SKU#: 10010

Pocket bender

Bending up to 100 °

Insertion depth from 5 – 60 mm

Material thickness up to 0.8 mm

Weight: 1.1kg

SKU#: 10210

Bender S-100

Bending up to 100 °

Insertion depth from 5 – 100 mm

Material thickness up to 0.8 mm

Weight: 1.3kg

SKU#: 10020

Bender XL-100

Bending up to 100 °

Insertion depth from 5 – 100 mm

Material thickness up to 0.8 mm

Weight: 2.45kg

SKU#: 10070

Bender S-150

Bending up to 100 °

Insertion depth from 5 – 150 mm

Material thickness up to 0.8 mm

Weight: 1.5kg

SKU#: 10030

Bender XL-150

Bending up to 100 °

Insertion depth from 5 – 150mm

Material thickness up to 0.8 mm

Weight: 2.7kg

SKU#: 10080

Bender L-250

Bending up to 100 °

Insertion depth from 5 – 250 mm

Material thickness up to 0.8 mm

Weight: 1.95kg

SKU#: 10040

Bender XL-250

Bending up to 100 °

Insertion depth from 5 – 250mm

Material thickness up to 0.8 mm

Weight: 3.9kg

SKU#: 10090

Bender L-350

Bending up to 100 °

Insertion depth from 5 – 350 mm

Material thickness up to 0.8 mm

Weight: 2.3kg

SKU#: 10050

Bender XL-350

Bending up to 100 °

Insertion depth from 5 – 350mm

Material thickness up to 0.8 mm

Weight: 4.5kg

SKU#: 10100

Bender XL-60

Bending up to 100 °

Insertion depth from 5 – 60 mm

Material thickness up to 0.8 mm

Weight: 2.2kg

SKU#: 10060

Bender DXL-250

Bending up to 100 °

Insertion depth from 5 – 250mm

Material thickness up to 0.8 mm

Weight: 4kg

SKU#: 10130

Disc Roller – S

Bending up to 100 °

Insertion depth from 5 – 60 mm

Material thickness up to 0.8 mm

Weight: 1.1kg

SKU#: 10110

Bender DXL-250

Bending up to 100 °

Insertion depth from 5 – 250mm

Material thickness up to 0.8 mm

Weight: 4kg

SKU#: 10130
