

Versiclad

Signature SERIES

Premium accessories for Versiclad roofs

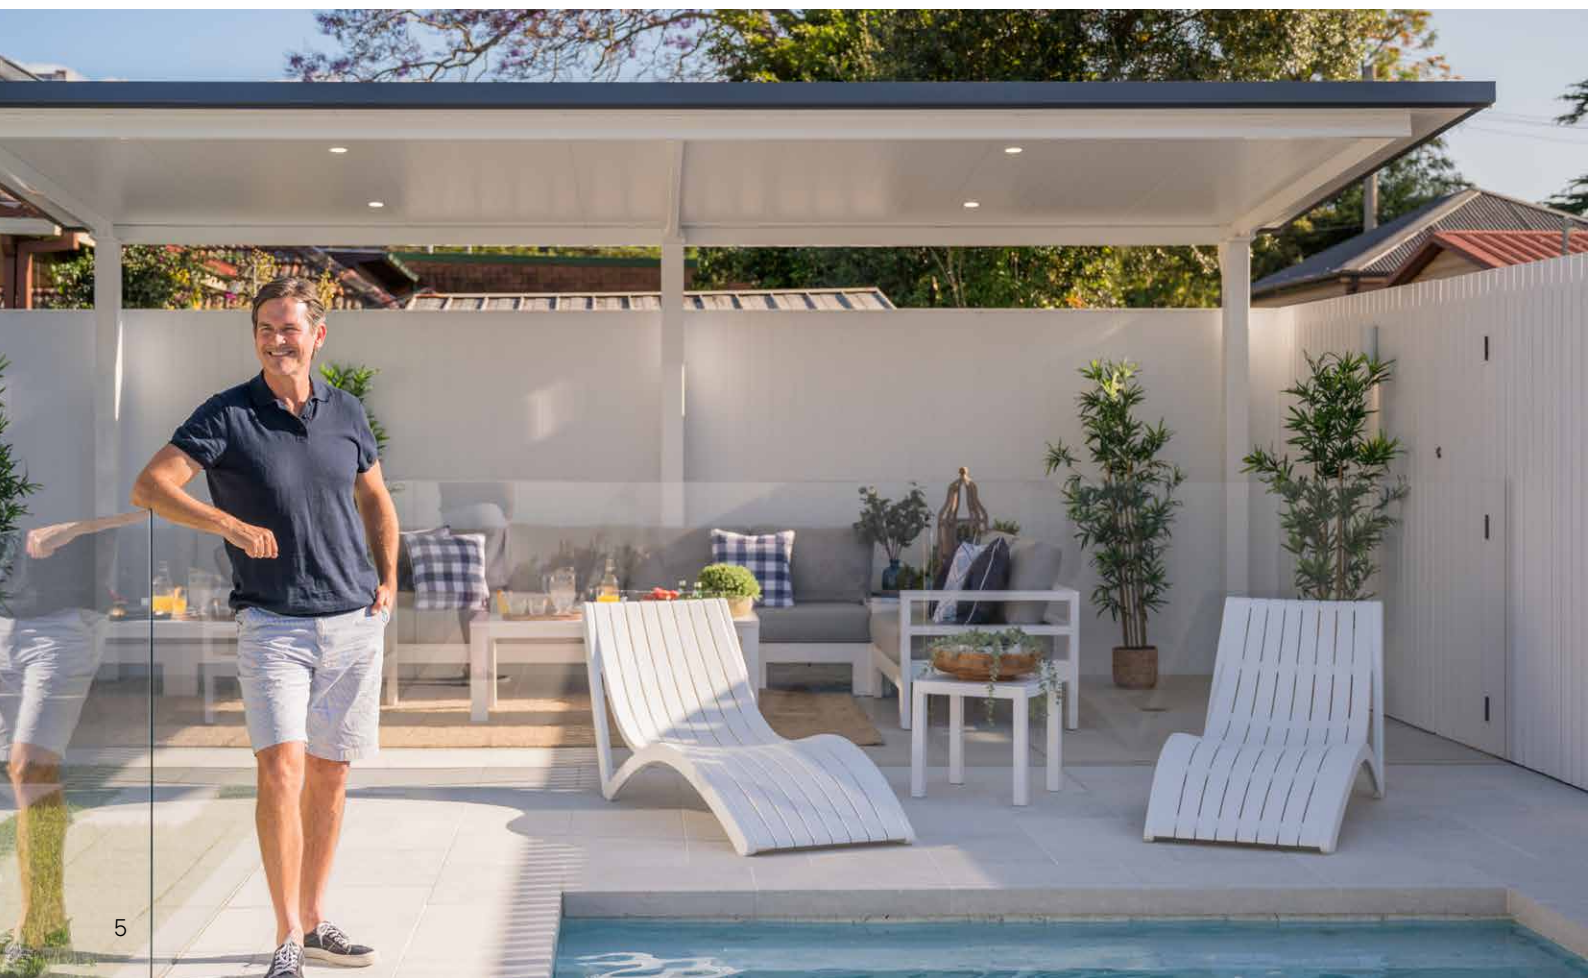

Bring life to the outside

Imagine an outdoor space where you can entertain, relax and live in maximum comfort all year round. One where you can spend more quality time doing the things you love.

With Versiclad you can do exactly that.

Our range of fully insulated outdoor roof panels helps you create outdoor spaces you can be proud of. Spaces that are functional, versatile and stylish without compromising on comfort.

Versiclad panels are an all-in-one solution and are comprised of a steel outer roof sheet, fire-retardant expanded polystyrene core and steel ceiling sheet underneath. Our panels have been beautifully engineered to provide a range of functional and aesthetic benefits, which is why they've been the first choice to elevate outdoor spaces in many homes across Australia since 1986.

Elevate your style

Introducing the Versiclad Signature Series – a premium range of roof accessories to take the look of your new outdoor area to the next level.

Your home should reflect your style. The same goes for your outdoor space. When only the best will do, our Signature Series accessories will help you achieve the space of your dreams. Designed to offer ultimate quality and sophistication, the Signature Series turns functional accessories into premium styling must-haves.

Meet the range

Signature Series LED Light Strip

Offering a premium alternative to downlights, the patent pending Signature Series LED Light Strip is designed to offer a lighting solution that exudes sophistication. The strip runs the length of your Versiclad roof panels and sits completely flush for a truly integrated look.

Signature Series Blade Gutter and Corner Piece

The Signature Series Blade Gutter and Corner Piece makes an impressive statement compared to traditional gutters thanks to its sleek shape and sharp edges.

Signature Series Slimline Barge Cap

Designed to conceal the non-gutter sides of your Versiclad roof panels, our Signature Series Slimline Barge Cap provides a sleek and minimalistic finish to your outdoor structure.

Signature Series Two Part Receiver Channel

This patented, innovative accessory is colour-matched to Versiclad roof panels, the Signature Series Z Flashing and LED Light Strip to achieve a harmonious look for the underside of your new roof.

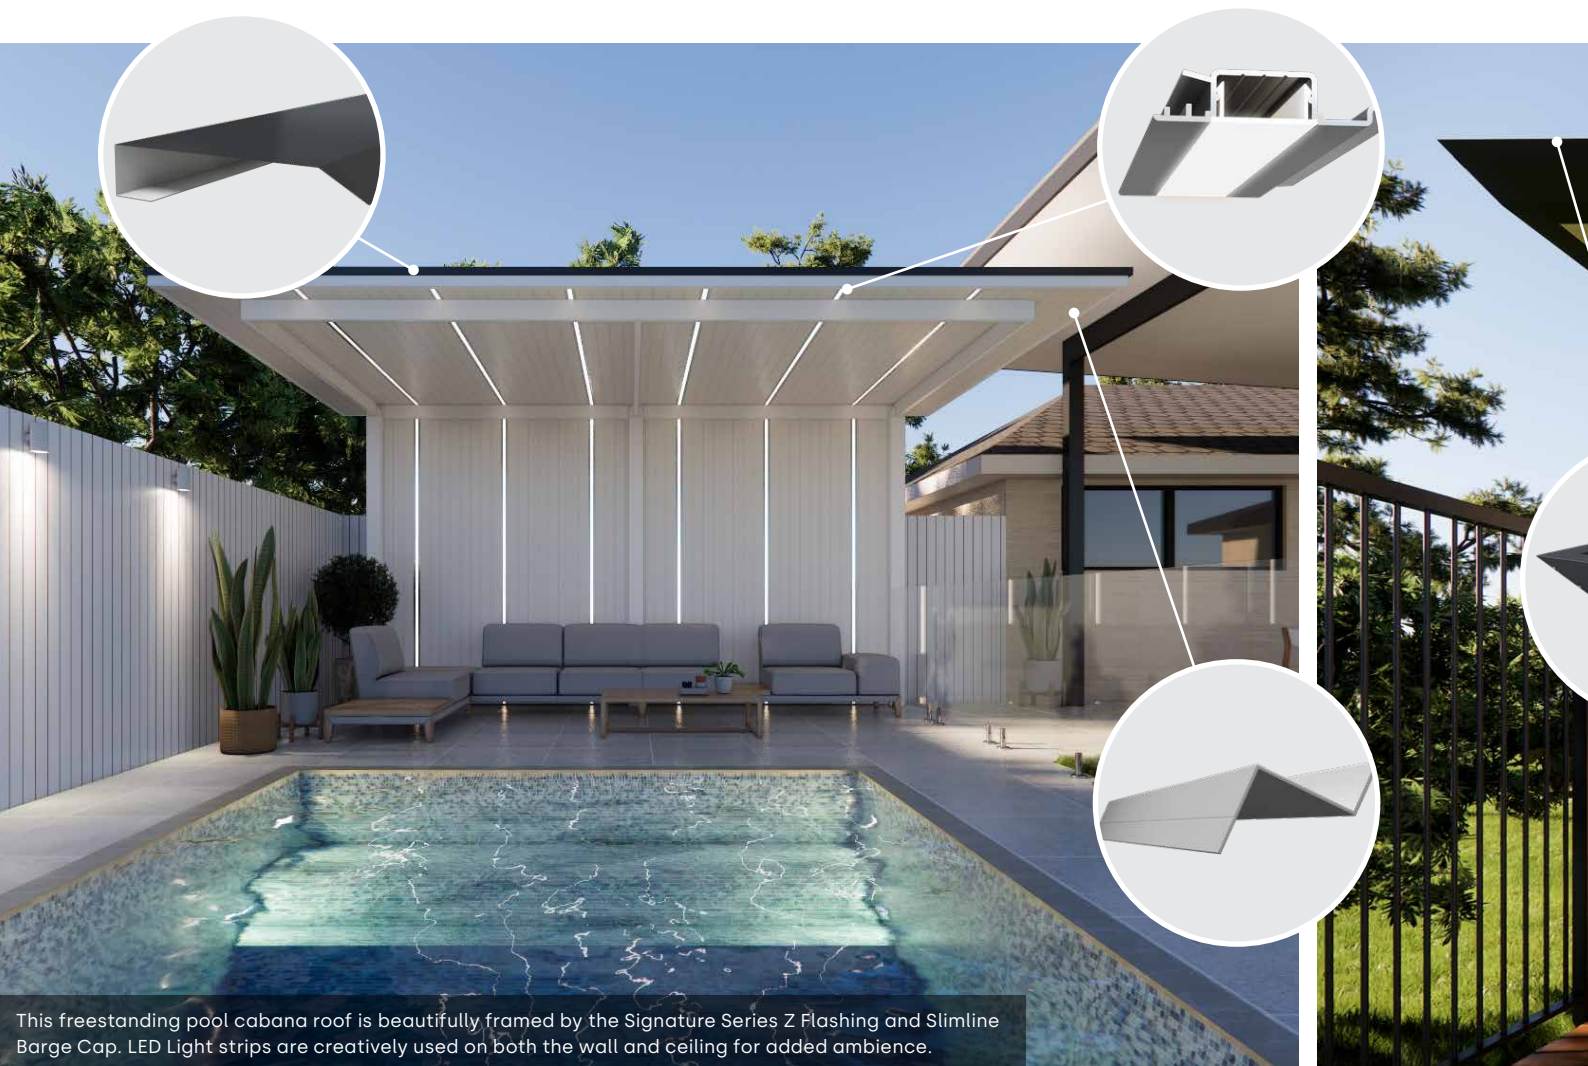

Signature Series Aluminium Z Flashing

The Z Flashing is perfectly colour-matched to the Two Part Receiver Channel and LED Light Strip for a sleek, fully colour-integrated finish on the ceiling side of your outdoor space.

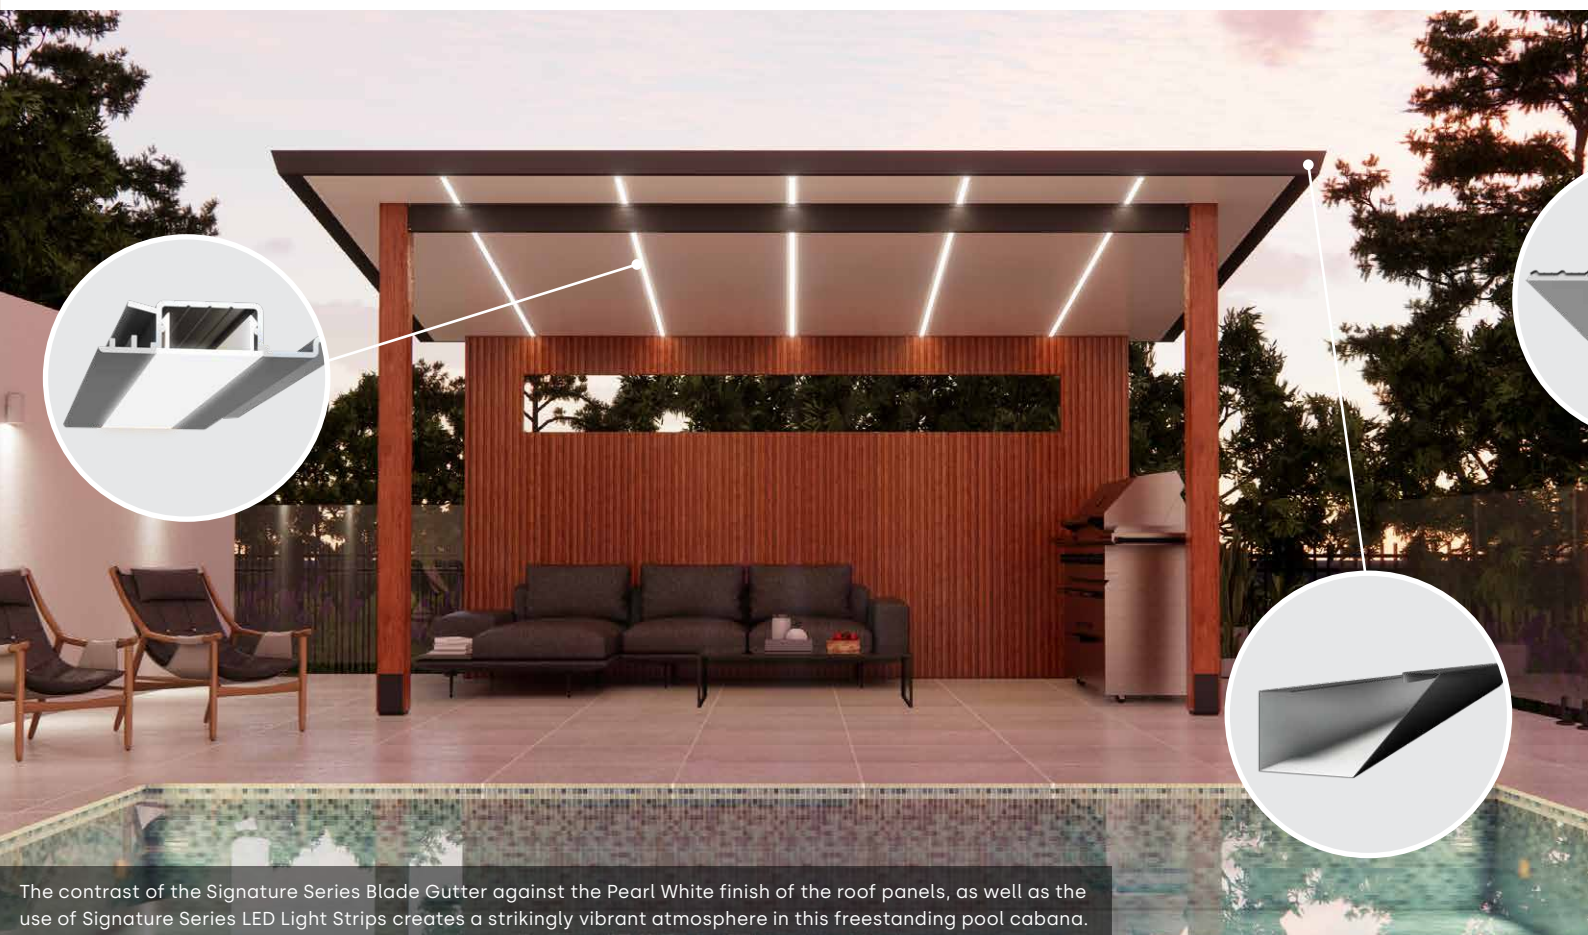

Signature Skylight System

Signature Skylights are an alluring solution to brighten your outdoor space. They invite natural light while blocking up to 99% of UV transmission to provide a vibrant and comfortable outdoor experience.

This freestanding pool cabana roof is beautifully framed by the Signature Series Z Flashing and Slimline Barge Cap. LED Light strips are creatively used on both the wall and ceiling for added ambience.

The contrast of the Signature Series Blade Gutter against the Pearl White finish of the roof panels, as well as the use of Signature Series LED Light Strips creates a strikingly vibrant atmosphere in this freestanding pool cabana.

Manufacturing excellence since 1986

Versiclad has manufactured and supplied the highest quality insulated roof, wall, and ceiling panels in Australia since 1986, earning a reputation of excellence and innovation. We owe this achievement to our ongoing investments in manufacturing equipment, our experienced team of industry professionals and our commitment to our customers.

Dedicated to a sustainable future

Our story begins with structural insulated panels that help to improve thermal comfort. Our aim is therefore to continuously improve our processes, to ensure our products are part of the solution.

Comprehensive installer network

We've partnered with Australia's best trades to ensure the quality of workmanship upholds the same standard as our products. Our select group of builders are experienced in creating diverse spaces to suit all lifestyles. Contact us to find a Versiclad-Pro Preferred Installer to install your Versiclad project and transform your home.

Proudly Australian Made

Our backyards have always been a cultural focus for how we choose to spend time with loved ones. The space we create in our homes is often a reflection of our Australian values. So, it's no surprise that our panels are proudly manufactured in our purpose-built facility in Sydney's South West. They are also backed by a 10 year warranty to give you extra peace of mind that your outdoor space will stand the test of time.
