

Residential Roofing & Cladding

Strong, Stylish, and Made for Australian Living

The roofline and façade of a home do more than protect – they set the tone for how your home is seen and remembered. From the street, they create that first impression which speaks volumes about style, quality, and character. At No.1 Roofing & Building Supplies, we understand that roofing and cladding are not simply functional elements but design features that define the identity of a home.

Our premium steel solutions bring together durability, style, and performance, giving you peace of mind that your home will stand strong for years to come. With a wide range of profiles, finishes, and colours, you have the freedom to achieve a look that is contemporary or classic, bold or subtle. Whatever your vision, our products are designed to make your home not just beautiful, but resilient.

About Us...

No.1 Roofing & Building Supplies is one of Australia's leading suppliers of premium roofing and building materials. Proudly family-owned and operated for over 21 years, we've built our reputation on reliability, expert advice, and outstanding customer service.

We proudly support homeowners, builders, and roofing professionals across New South Wales, the ACT, Queensland, and beyond. From new builds to renovations, we provide high-quality materials and trusted brands to bring your project to life.

Our extensive range includes metal roofing and walling, architectural cladding, insulation, fiberglass and polycarbonate roofing, skylights, rainwater systems, waterproofing and ventilation / condensation management solutions, and Sheds — everything you need under one roof.

With conveniently located branches and a team of knowledgeable specialists, we make it easy to get the right products, technical support, and fast service every time. Whether it's a small home improvement or a large-scale development, No.1 Roofing & Building Supplies is your trusted partner for quality, performance, and peace of mind.

Local Manufacturing

No.1 Roofing & Building Supplies are proud leaders in Australian roll-forming manufacturing. Using state-of-the-art machinery, we produce a wide range of premium metal roofing products — including roof sheets, architectural panels, flashings, and rainwater goods — all crafted to the highest standards of quality and performance.

Our products are available in a variety of materials such as COLORBOND® steel, Zinc, Copper, and Aluminium, as well as innovative pre-painted finishes. Each option is designed to deliver exceptional durability, lasting performance, and stunning architectural appeal for every project.

The No.1 Difference

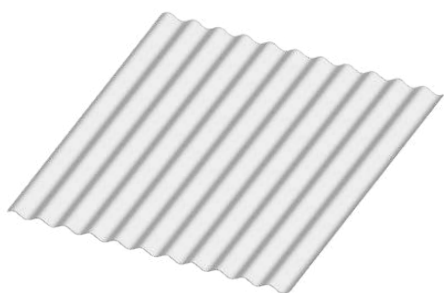

With nearly 300 team members across 12 branches in NSW and the ACT, we have the people and resources to support projects of any size — from small home improvements to large builds.

- We can supply an unsurpassed range of roofing products, that you require, both from trusted partners such as CSR Bradford, Ampelite, Stramit, Metroll, Versiclad, or from our extensive range of manufactured roofing products.
- Expert Team – Our experienced staff provide friendly, knowledgeable advice you can rely on.
- Service You Can Trust – We put customers first with seamless service and next-day delivery on many orders.
- Quality Assured – All in-house manufactured products are rigorously tested and certified to meet Australian Standards.
- Always Close By – With branches across NSW, the ACT, and a central Distribution Centre, we deliver quickly and efficiently wherever you are.

Find the look that fits your home / project...

Manufactured from high-quality steel, these profiles offer exceptional durability, weather resistance, and long-lasting protection for your home, shed, or commercial building. With a variety of designs to choose from, each profile combines practical performance with a clean, modern look, making installation simple and ensuring a great result every time

ONECORRY™

Timeless and dependable, OneCorry™ is the classic corrugated profile Australians know and love. Perfect for everything from homes to sheds, it delivers a familiar look with strength you can rely on

COVER WIDTH 762MM

1DECK™

1Deck™ is a strong, modern finish that lasts. Its bold ribbed design adds style and strength, while high-quality steel ensures durability and protection against Australia's harsh conditions. The smart choice for lasting performance and appeal

COVER WIDTH 762MM

QUICK-DEK700™

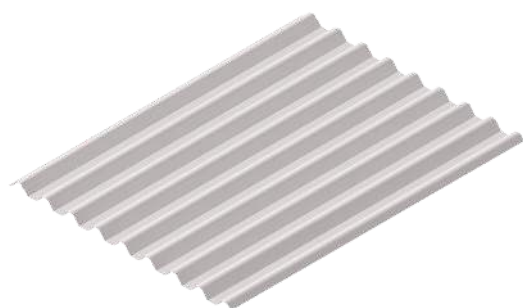

No.1 Quick-Dek700™ is a strong, concealed-fix system built for fast installation and lasting performance. Its deep ribs provide wide spans, efficient drainage, and a clean, modern look—perfect for homes, sheds, and commercial projects

COVER WIDTH 700MM

TRI-SPAN™

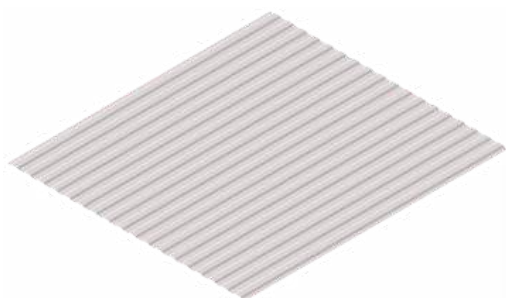

No.1 Tri-Span™ combines modern style with strength and durability. Made from premium steel, it offers wide coverage for faster installation and suits low-pitch roofs, it's the smart choice for long-lasting performance and sleek design

COVER WIDTH 700MM

MODRIB™

No.1 ModRib™ features a subtle ribbed profile that provides a near-flat appearance, making it perfect for both interior and exterior applications where a clean, contemporary look is desired.

COVER WIDTH 850MM

Architectural Roofing & Walling

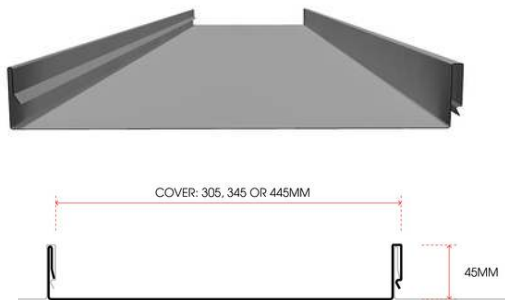

Strong Lines. Modern Design. Effortless Style.

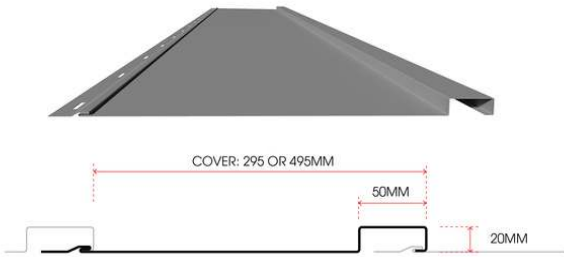

Elevate your design with the No.1 range of Architectural Cladding profiles—crafted to deliver exceptional style, precision, and performance. Perfect for residential and commercial projects alike, these premium systems offer clean lines, bold textures, and contemporary finishes that bring modern architecture to life. Made from high-quality steel and designed for durability, each profile provides a refined aesthetic and lasting protection, ensuring your building looks as good as it performs

SNAP-LINE45®

No.1 Snap-Line45® offers a sleek, architectural look with clean, continuous lines that suit both modern homes and commercial buildings. Its concealed-fix design provides superior weather performance and a refined finish without visible screws. Made from durable, high-quality steel, Snap-Line45® delivers lasting strength, low maintenance, and timeless style—perfect for roofs and walls that make a statement

ZENO-CLAD™

No.1 Zeno-Clad™ brings bold, contemporary design to any project with its distinctive board and batten-style profile. Perfect for modern home wall applications, it creates strong vertical or horizontal lines for a timeless architectural look. Made from premium steel, Zeno-Clad™ offers exceptional durability, easy installation, and long-lasting performance, combining strength with striking visual appeal

URBANE™

No.1 UrbanE™ delivers a clean, sophisticated look with its smooth, wide pans and subtle recessed joins. Ideal for roofing and wall applications, it offers a stylish alternative to traditional cladding with simple lines that enhance any design. Crafted from high-quality steel, UrbanE™ provides lasting durability, easy installation, and a refined finish that stands up to Australia's harsh conditions

ECLIPSE™

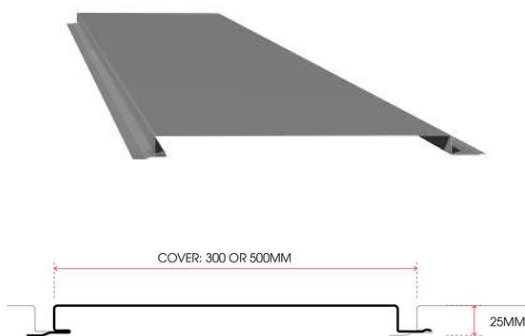

No.1 Eclipse™ features a bold, contemporary snaplock design that delivers striking shadow lines and a premium architectural finish. Perfect for both roofing and wall applications, it offers the refined look of standing seam with the efficiency of a quick and secure snap-in installation. Made from durable, high-quality steel, Eclipse™ combines modern style with long-lasting performance and weather protection

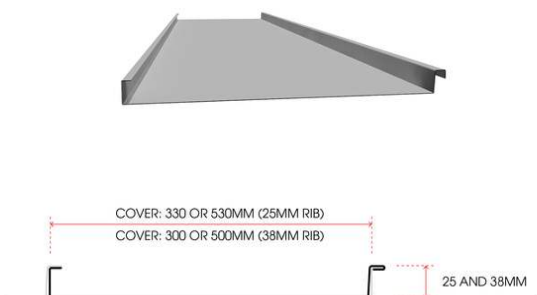

EXPRESSION™

No.1 Expression™ offers a modern interlocking panel system that delivers a clean, streamlined look for wall applications. Its sleek profile creates bold, uniform lines that suit both residential and commercial designs. Easy to install and available in a range of finishes, Expression™ provides outstanding durability, weather resistance, and low-maintenance performance, perfect for creating a stylish, contemporary exterior

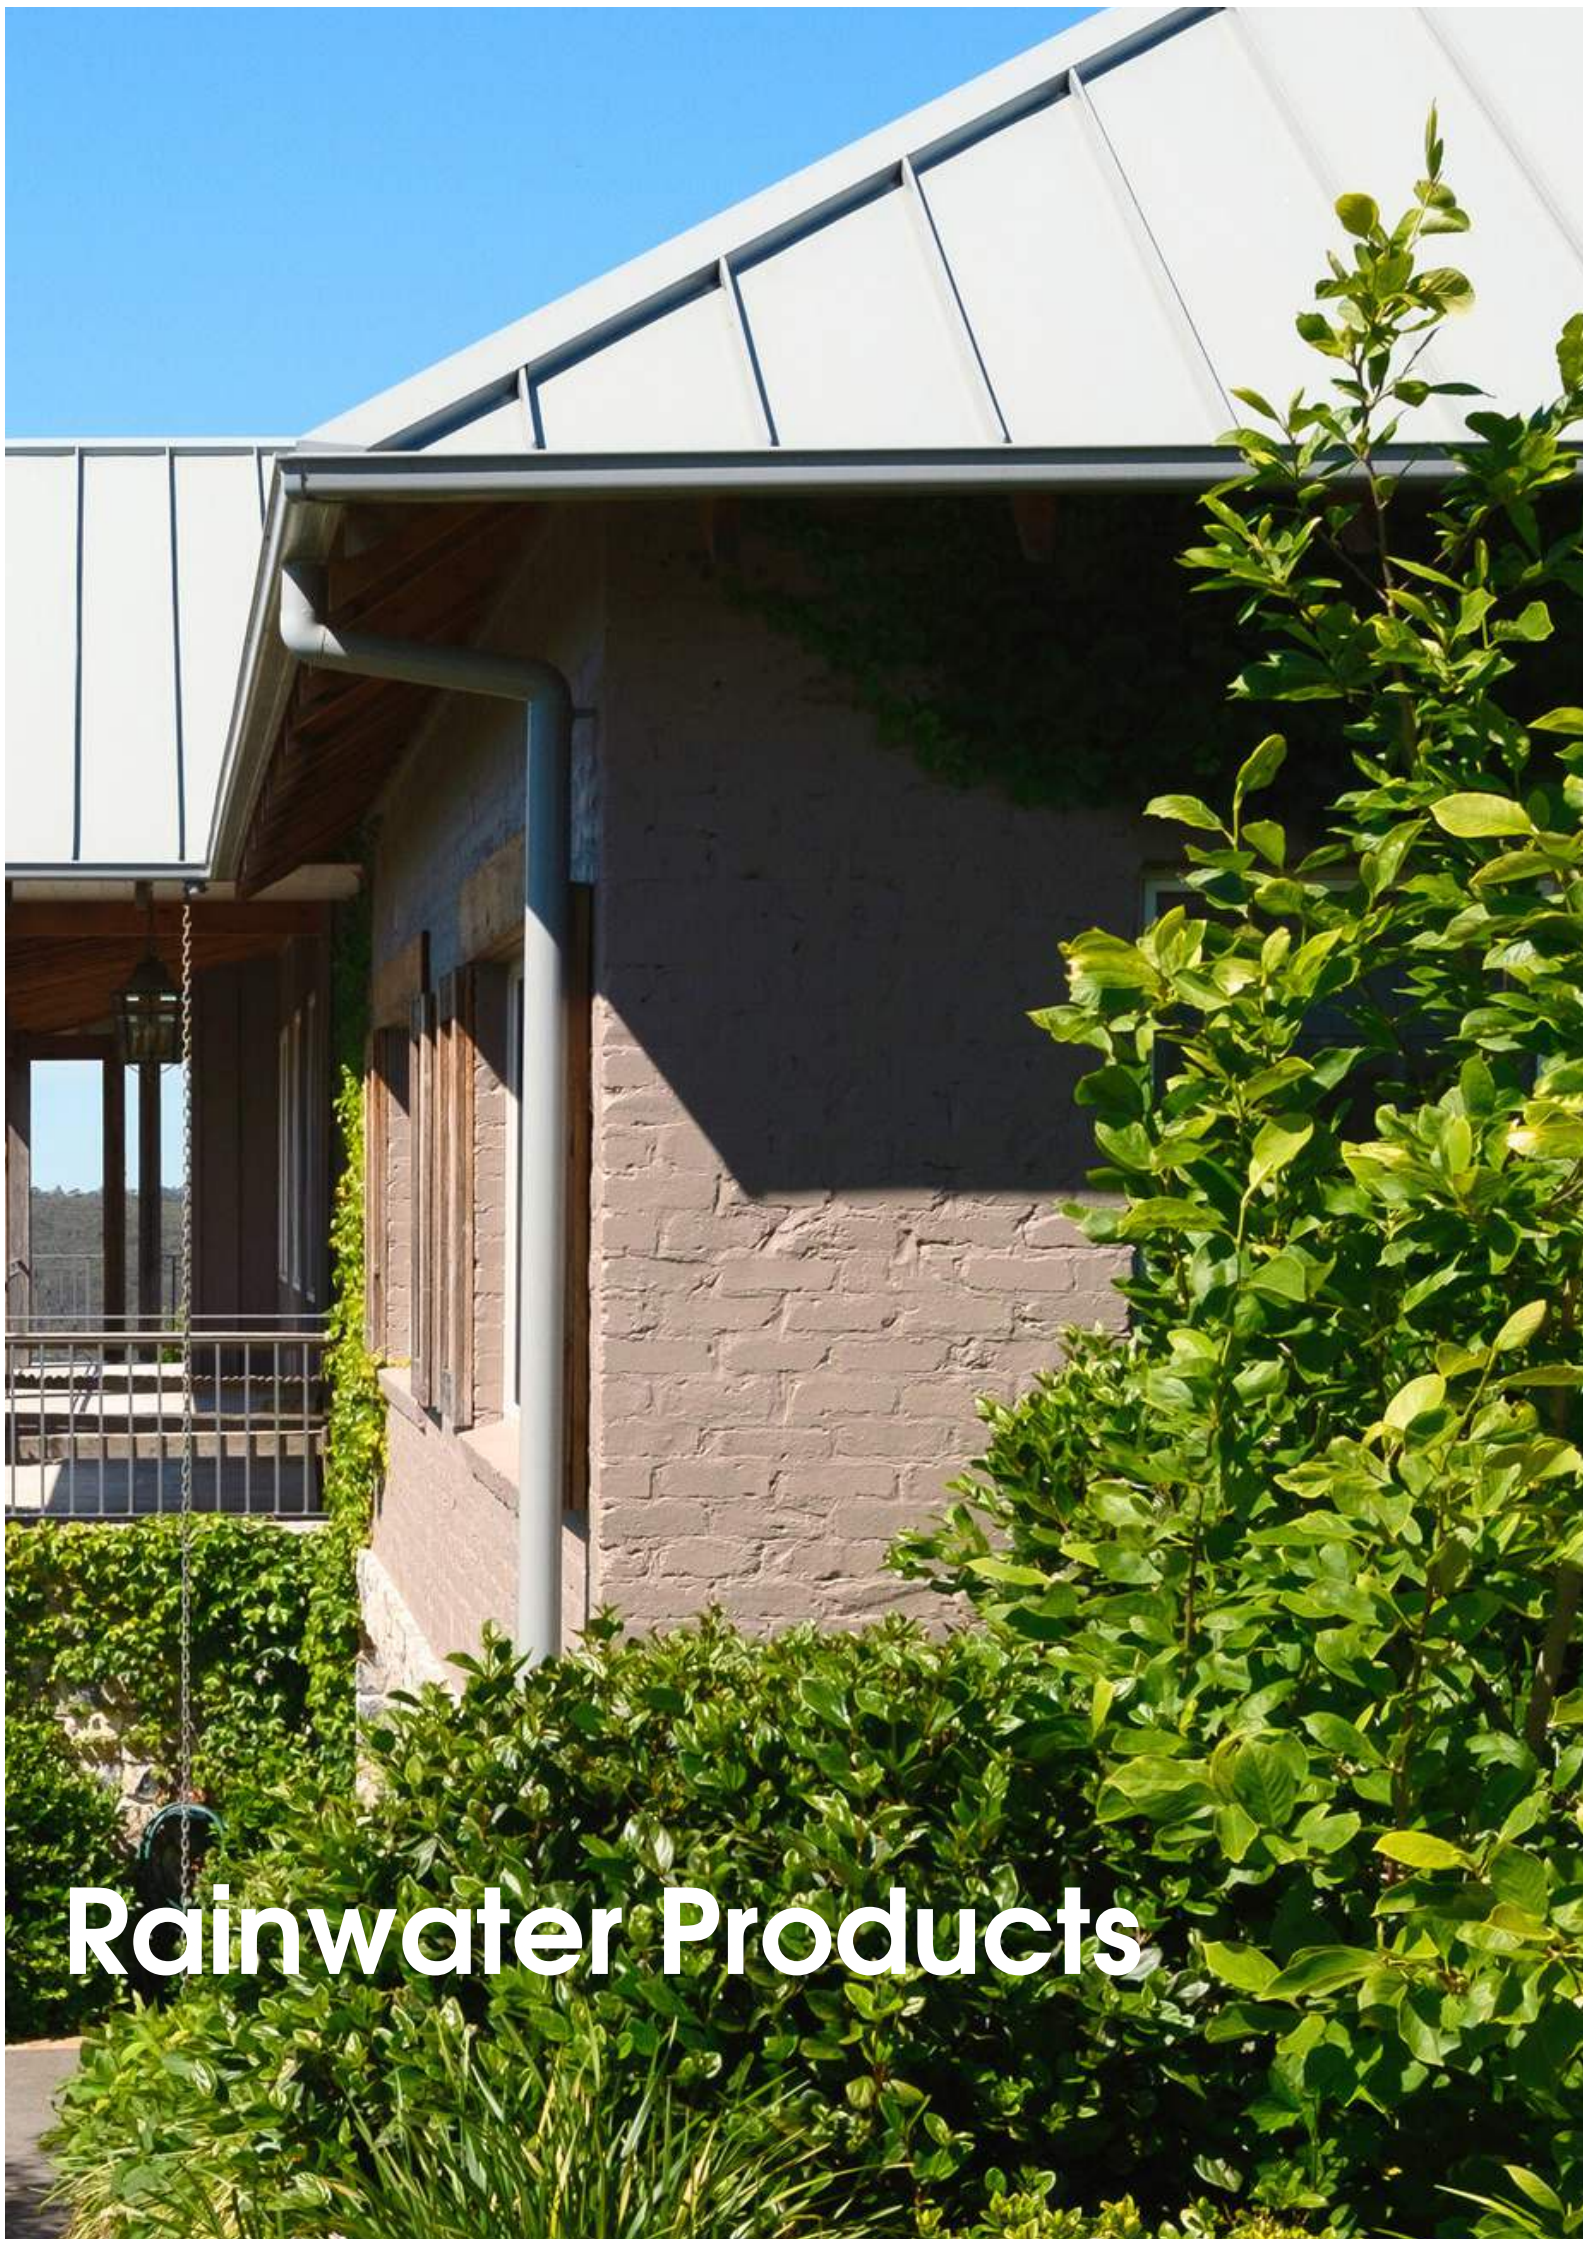

GENESIS™

No.1 Genesis™ is a premium standing seam cladding system designed to deliver a refined, architectural finish. With its crisp seams and smooth, uninterrupted lines, Genesis™ adds elegance and depth to any roof or façade. Ideal for contemporary homes and commercial projects, it offers exceptional flexibility (including curved applications), weather resistance, and long-term durability, bringing timeless style and strength together in one sleek profile.

Rainwater Products

Rainwater Solutions Built to Last

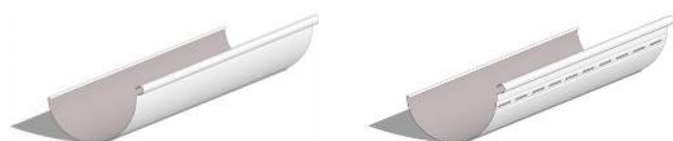

No.1 Roofing's premium range of rainwater goods, designed to perform and built to last. From gutters and downpipes to fascia and accessories, our products are made from durable, high-quality steel to ensure reliable water management in all weather conditions. Available in a variety of profiles and COLORBOND® colours, they not only safeguard your home but also enhance its overall look with a clean, modern finish.

QUAD-GUTTER

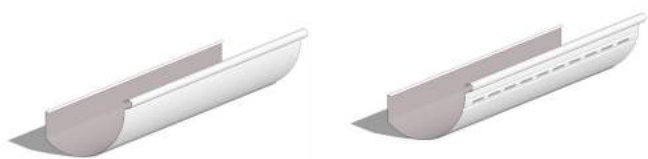

A classic curved-front steel gutter suited to traditional and heritage-style homes. Easy to install and available in slotted or unslotted designs, it offers reliable performance and a timeless look in durable COLORBOND® steel

150 HALF ROUND GUTTER

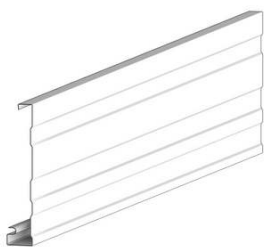

A curved steel gutter ideal for modern and contemporary homes, patios, and sheds. Designed for efficient water flow and lasting durability

150 FLAT BACK GUTTER

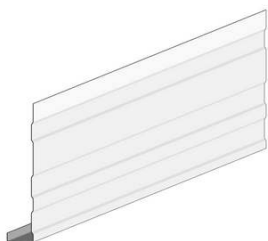

A sleek, square-edged gutter ideal for modern homes. Designed for a flush fascia fit, it offers strong drainage and easy installation. Available in slotted or unslotted designs, it combines clean lines with lasting performance in durable COLORBOND® steel

FASCIA

A modern, all-in-one gutter and fascia system with a sleek, square profile. Easy to install and available in COLORBOND® colours, it offers durable performance and a clean, contemporary finish

FASCIA COVER

A sleek steel cover designed to refresh existing timber fascia without replacement. Easy to install and available in COLORBOND® colours, it provides a clean, modern finish with lasting protection and low maintenance

About No.1 Sheds

At No.1 Sheds, we're proud to build premium, locally manufactured sheds using trusted Australian materials, including genuine COLORBOND® steel. Designed and engineered to withstand Australia's harsh conditions, every shed combines strength, durability, and timeless style. With over 25 years of industry experience, our team delivers fully engineered sheds built to last — from backyard workshops to large rural structures. Choose from the full COLORBOND® colour range, modern architectural cladding options, and tailored designs to create a shed that's uniquely yours. Whether you're after a functional workspace or an eye-catching feature on your property, No.1 Sheds makes it easy to design, build, and enjoy — your shed, your way.

Design Your Shed Your Way...

Have something specific in mind? Our online 3D designer lets you customise your shed—choose the size, roof style, doors, windows, and colours to suit your property or business. Plus, once complete you will receive an instant quote.

We provide options for:

- Garages and carports
- Commercial and Industrial Sheds
- Home Workshops
- Farm and rural sheds
- Patios & Gazebos

Why Choose No.1 Sheds?

- **Build an Architectural Panel Shed with UrbanE™** architectural cladding for outstanding visual appeal and functionality.
- **Friendly, Expert Team** – We'll guide you from concept to completion, whether you're DIY-ing or want your shed built for you. All sheds are fully certified and engineered to suit your block.
- **Bolted, Not Screwed** – Built stronger. Our sheds use bolted purlins and girts for superior strength and durability.
- **Genuine BlueScope Steel** – Manufactured from authentic Australian BlueScope Steel, not imported substitutes. Trusted quality designed to perform in tough conditions.
- **Authentic COLORBOND® Range** – Choose from the full genuine COLORBOND® colour range, built to last and resist Australia's harsh weather.
- **25 Years of Experience** – Backed by over two decades of industry expertise and a solid warranty you can rely on
- **14 Locations Across NSW & QLD** – Local service and support wherever your project is. Our branches are strategically located for fast turnaround and personal assistance
- **Range of Accessories** – Customise your shed with options such as door automation, insulation, mezzanines, windows, and sliding doors to create a space that works for you
- **Not Imported** - Every No.1 Shed is made locally using Australian materials and craftsmanship. We never compromise on quality or cut corners with imported steel.

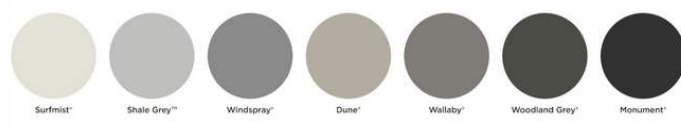

Colorbond® Steel Colour Range

Bring your vision to life with the trusted strength and style of COLORBOND® steel from No.1 Roofing. With a wide range of designer colours inspired by the Australian landscape, you can create the perfect look for your home
